

NEW

BEACH & TRAVEL TOWEL

- **The perfect towel for the beach, travel, sports and leisure**
- **Soft and absorbent**
- **Easy to fold, requires minimum space**

The perfect towel for the beach, travel, sports and leisure. This microfiber towel is superior to the cotton terry towel because it is lighter, smaller and takes up much less space in your beach or gym bag and your luggage when travelling. The microfiber towel is soft and thin, but will still dry your body quickly after a visit to the pool, beach or shower. The surface is flat to help prevent sand and grass from sticking to the towel. The smooth, thin towel will dry much faster than ordinary towels. The towel is made from the best quality microfiber, for the best possible absorbency.
